Board Comments:

Member Garcia thanked the presenters. She noted that Area Two is one of the areas where the deviations are very high. She asked, once these new boundaries have been established, how will that inform school boundary. Mr. Smith replied that the boundaries are determined by total population and not by students, average daily attendance or school attendance boundaries. He continued that the trustee areas are intended to reflect communities of interest, so some districts like to see maps with the school attendance areas overlaid over the trustee areas. Member Garcia then asked what that means for a district that has open enrollment.

President Pritchett asked what happens if two trustees end up living in the same area after new boundaries are in place. Mr. Reynold's replied that when they go to rebalance the areas which must be brought into compliance with the total population, they are allowed to look at where the current trustees live, and they will do their best not to disrupt that. President Pritchett also asked if they take major crossroads into consideration. The team said yes they do. He added

be able to come back and make an assessment about what to do going forward. Member Garcia also asked what happens once the Board approves a project list and projects on the list need to be either removed or added. Mr. Hickey replied that any time a change needs to be made, he will be responsible for justifying the need for the change. He will submit the change to Ms. Ramos and the Superintendent who will review it, then a determination will be made on if the change actually needs to be made, and then it will come to the Board for approval to renew the list.

Member Rhodes said he is in full support of approving this tool tonight.

Vice President Murawski thanked all for the work and said she would like to understand what the long-term plan is and also what can be done now. She looks forward to approving this tonight.

President Pritchett also said she is very happy to see this come to fruition.

Superintendent Aguilar added that he has asked staff to put together a deck of slides. He feels the team has done a great job of keeping an equity lense.

Member Rhodes motioned to approve the item, and Member Villa seconded. The motion passed unanimously.

Board Comments:

Member Garcia thanked Mr. Ramirez-Fong for the presentation. She asked if some of the expenditures are for one year investment or multi-year. Mr. Ramirez-Fong said that expenditures for Sly Park and college and career opportunities have funds provided through 2023-24. Member Garcia then asked if unspent funds can go toward ventilation. She asked when the final decision will be made by staff for unspent funds and if those decisions come to the Board.

Superintendent Aguilar answered that there may be instances when the expenditure cannot be actualized, so a reduced timeline report may come back to the Board.

Vice President Murawski asked if there is a schedule for Board updates. Mr. Ramirez-Fong said that the next would be in February. Vice President Murawski said she feels a report every six month is not enough. She made a motion to approve this item, and Member Villa seconded. The motion passed unanimously. *In-House Counsel Raoul Bozio went over proposed Board Policy

*Public Comment:
Alison French-Tubo*

Board Comments:

President Pritchett asked if this policy will be communicated to school sites regarding adults friending students on social media (if it is passed). Mr. Bozio replied that he feels this will require some efforts on the District's leadership to communicate this and to put it into practice throughout the District. He continued that it will likely include some training and education around the key components of the policy. President Pritchett asked who would be enforcing the policy. Mr. Bozio said that District administration would enforce it. President Pritchett noted that there are many teachers, especially in high school that are friends on social media with their students. Mr. Bozio said that it is still to be evaluated in how the District will enforce this, and he thinks there are some practices that will have to be reviewed. He also said it is a different matter when it is former students that are now adults.

Vice President Murawski said she is very supportive of this direction.

Member Villa noted that there are teachers who have students that they have known for many years, so she is not sure how the District will deem what is appropriate and how to therefore police this matter. She also said she does not want to use this as an invitation to police teachers on their social media page when they have connections with students that are appropriate versus those that are not. She said this will be a really fine line for her.

11.3 *Public Hearing: Resolution No. 3235: Compliance with the Pupil Textbook and Instructional Materials Incentive Program Act (Erin Hanson)*

Conference/Action

*Public Comment:
None*

Board Comments:

Member Garcia motioned to move the item from Conference to Action, and Member Rhodes seconded. The motion passed unanimously.

Member Garcia asked if the textbooks are tied to the site and sufficient for those in independent study. Ms. Hanson said that the textbooks are assigned to the site. Students were directed to get their textbooks from their school of residence and then Capital City School is then providing additional instructional materials as needed. Member Garcia said that at some point the Board needs to learn more about specifics of the program. Member Garcia motioned to approve this item, and Member Rhodes seconded. The motion passed unanimously.
